

Oral Test Question
2003 Manitoba Envirothon

Manitoba farmers are encouraged to follow sustainable agricultural practices.

- 1) What strategies would you recommend to conserve agricultural land in Manitoba and why?
- 2) How do your strategies address the three pillars of sustainable development (environment, economy, and society)?

In choosing your strategies be sure to consider the full range of possibilities including land management practices, policies, programs, legislation, etc.

Remember to consider all Envirothon themes when developing your presentation.

Rough allocation of marks will be 70% for part 1 and 30 % for part 2.
