

# The Forest Health Protection Act

From: <http://www.gov.mb.ca/sd/forestry/ded-urban/leg.html>

In Manitoba, native and invasive forest pests and diseases of concern are regulated by ***The Forest Health Protection Act (C.C.S.M. c. F151)*** and the associated regulations. This legislation contains provisions that help prevent the entry of invasive forest pests, manage any new infestations detected in the province and manage outbreaks of forest pests that are native to Manitoba or are already well established here. For a copy of this legislation, please visit:

<https://web2.gov.mb.ca/laws/statutes/ccsm/f151e.php>

The Dutch Elm Disease Management Program and the Heritage Tree Program are administered under this legislation. For more information on these programs, please visit:
